When that 15¢ bolt arrives late, damaged or wrong, production can stop and customers can leave. That rarely happens when you buy from us.

Here’s why:
If you’re still ordering consumables on your own by checking stock, writing up reqs, getting approvals, shopping the items, and so forth, we can save you time and money with barcode ordering.

We can manage your items through our Point-of-Use Vendor Managed Inventory (VMI) using a smartphone app or you can do it yourself through our Self-Scan offering.

With the VMI program, we help organize your stocking areas and recommend suitable bins.

With both programs, we help identify items to manage and consult with you on minimum and reorder quantities required so you never run out. We print barcode labels and place them on your bins.

Then your savings begins, as shown below. The comparison assumes you issue a blanket PO and stop receiving in items, as most customers do. But that’s up to you.

### TRADITIONAL

<table>
<thead>
<tr>
<th>Traditional Ordering</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Your</strong> Workers – check stock &amp; compile reqs.</td>
</tr>
<tr>
<td><strong>Your</strong> Managers – approve reqs.</td>
</tr>
<tr>
<td><strong>Your</strong> Buyers – quote items.</td>
</tr>
<tr>
<td><strong>Your</strong> Buyers – place orders.</td>
</tr>
<tr>
<td><strong>Your</strong> Receiving Department – receives orders.</td>
</tr>
<tr>
<td><strong>Your</strong> Workers – put away items.</td>
</tr>
<tr>
<td><strong>Your</strong> Accounting Department - matches individual receipts &amp; invoices.</td>
</tr>
<tr>
<td><strong>You</strong> spend hours trying to compile reports on what you ordered.</td>
</tr>
</tbody>
</table>

#### 8 Steps for the Same Outcome

1. **TRADITIONAL**
2. **OUR PROGRAMS**

#### Point-of-Use VMI

| **We** visit periodically to scan bins with insufficient stock. |
| **We** deliver and put away items. |
| **You** pay from a monthly, consolidated or custom invoice that speeds processing. |
| **We** provide comprehensive management reporting to help you track your spend and usage by department and work cells. You see the number of items per department, number of times ordered, possible dead inventory and lots more. |

#### Self-Scan

| **You** periodically scan bins with insufficient stock. |
| **You** receive products. |
| **You** put away products. |
| **You** pay same way as with our VMI program. |
| **We** provide same reports as with our VMI program. |

### 1 Step – 87% Less Work

### 4 Steps – 50% Less Work
3 Methods to Process Scans
Whether You or We Manage Supplies

Fastest Method; Least Control

Orders go directly from the smartphone/scanner to Atlantic’s computer for processing.
This is the fastest method, which is well suited for multiple point-of-use locations.

Fast Method; More Control

Quotes in PDF format are emailed from the smartphone/scanner to you.
Ideal solution where prior approval is required before your quotes are converted to orders.
Limitation is that you must contact us before we can proceed, whether or not changes are necessary.

Fast Method; Most Control

Quotes go from the smartphone/scanner to an Atlantic online shopping cart.
You can view and possibly change the quote, then simply release it to us electronically for automatic processing.
This is the fastest way to get approvals and release your orders.
With this technology, we support Punch Out to purchasing portals such as Ariba.

2 Same Day Shipping

Your in-stock fasteners ship same day when you order by 3 PM. So you keep less inventory in stock without the risk of production hiccups.

3 AS9120B Certified

More stringent than ISO, AS certification requires traceability, which we achieve electronically through lot control. You get greater accuracy and quicker access to important documents like certs since it’s paired with our imaging system.

4 Service Level Over 94%

The percentage of orders we ship on-time, 100% complete consistently averages over 94%. So your assembly lines keep running and customers keep smiling.

5 Extensive Technical Help

Face-to-face or through our website, expect unparalleled technical help, from troubleshooting to design.
**Accuracy Over 99.9%**

Forget about costly returns and assembly line stoppages. Year after year, our accuracy exceeds 99.9%.

**$6 Million in Fasteners**

Typically, in stock, are the brands and quantities you need, along with Specials for specific customers.

**Made-to-Print Services**

**Sourcing** – Come to us with your fastener Specials, stampings, seals and gaskets, forgings, powdered metal, laser cut, hot and cold headed parts - and more. We partner with hundreds of sources worldwide and inspect your parts in our quality lab.

**Lean, Just in Time inventory management** – Benefit from our volume purchasing while reducing your on hand inventory. Cut waste with our inventory control options that include hold and release blankets for your made-to-print parts and efficient Point-of-Use VMI programs.

**Some of the Made-to-Print Parts We Supply to Customers like You**

- Laser Blanking - Stainless
- Thick Laser Blank
- Simple Stamping
- Progressive Stamping
- Rework
- Overseas Assembly
- Machined Parts
- Domestic Assembly
- Powdered Metal
- Sealing and Gaskets
- Cold Heading and Secondaries
- Forging
- Specialized Coatings
- Deep Drawn
Metal fasteners – inch and metric

**Anchors**
- Powers®
- Simpson Strong-Tie®
- TOGGLER®
- Wej-it®
- Calk-In™
- Chemical
- Conical
- Double expansion
- Drop-In
- Epoxy
- Hammer drive
- Lag shield
- Lead
- Machine screw expansion
- Nail-in
- Self-drilling wallboard
- Self-drilling masonry
- Self-tapping masonry
- Single expansion
- Sleeve
- Sleeve/wedge combo
- Spike™
- Toggles
- Wedge

**Bolts**
- HOLO-KROME®
- Infasco®
- Nucon UNBRAKO®
  - 12 point flange screws
  - A193, A307, A325, A490
- Camrail®
- Camtainer®
- Carriage
- Elevator
- Hanger
- Hex cap Grades 2, 5, 8
- B7 finished/Heavy hex
- Hex lag
- Hex tap
- Lock
- Plow
- Shaker screen
- Square head machine
- Step
- Stud
- T-head

**Hardware**
- Electronic
  - Captive panel screws
  - Circuit board supports
  - Handles & ferrules
  - Hex jack screws
  - Insulating washers
  - Precision shoulder screws
  - Spacers
  - Standoffs
  - Thumbscrews
- Industrial
  - Anchor shackles
  - Beam & hose clamps
  - Chain hardware
  - Eye bolts
  - Eye nuts
  - Flanges
  - Hooks
  - J-bolts
  - Lifting eyes
  - Pad “D” eyes
  - Peg hooks
  - Rod ends
  - S-hooks
  - Screw eyes
  - Shackles
  - Shoulder hooks
  - Swivel hoist rings
  - Turnbuckles
  - U-Bolts
- Wire rope fittings

**Keystock**
- Rectangular
- Square
- Woodruff

**Nuts**
- APM HEXSEAL®
- ESNA
- SPS FLEXLOC®
- GREER®
- NUCOR®
  - Acme
  - Acorn
  - Allenut®
  - Cage
  - Cap
  - Castle
  - Clinch
  - Coupling
  - Finished hex
  - Flange
  - Flat
- Heavy hex
- Hex machine screw
- J-nut
- Jack-Nut®
- Jam
- Keps®
- Left hand
- Lock
  - Center
  - Flange
  - Flexloc®
  - Nylon insert
- Prevailing torque
- Stover®
- Top
- Top flange
- Nut/washer assemblies
- Nutsert
- Rivkle® elastic
- Self-clinching
- Serrated flange
- Slotted
- Spherical flange
- Square
- Tinnerman®
- T-nut
- U-nut
- Weld
- Well-Nut®
- Wing

**Pins**
- Groov-Pin
- SPIROL®

**Western Wire**
- Clevis
- Cotter
- Dowel
- Groove
- Hitch
- Pull-out dowel
- Self-clinching
- Spiral
- Spring
- Taper
- Threaded taper

**Pipe plugs**
- HOLO-KROME®
- UNBRAKO®
  - Dry-seal®
  - Levi-seal®

**Rivets**
- Avdel®
- POP®

**Screws**
- APM HEXSEAL®
- Semblex®
  - Acoustical lag
  - Binding post
- Camrail®
- Drywall
- Hex lag
- Machine
- PT®
- Rolok®
  - Self-clinching studs
  - Self-drilling
  - Self-piercing
  - Self-sealing
  - Self-tapping
  - Sems
- Sheet metal
- Tamperproof screws
  - One-ways
  - Phillips pin-heads
  - Socket pin-head
  - Snake eye® spanners
- Torx®
  - Tri-wing®
  - Taptite® (Tri-round)
- Tek®
- Thumb
- Thread cutting
- Thread forming
- Thread rolling
- Torx Plus® machine
- U-Drive
- Wood

**Self-clinching**
- Bollhoff
- Captive®
  - Nuts
  - Panel
  - Pins
  - Standoffs
  - Studs
